

Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Wednesday 18 Aug 2021

++ Valid for broadcast between 0600 and 1800

Headline:

Rain and drizzle continuing in the south, turning drier later.

Today:

Patchy rain and drizzle continuing through the morning in southern areas. Turning largely dry and settled into the afternoon, with the odd showery outbreak possible later. Staying cloudy through the day, with a few brighter spells. Maximum temperature 19 deg C (66 deg F).

Tonight:

Some patchy drizzle and light rain returning to parts of the region this evening, mainly in the south, becoming more persistent overnight. Despite this, some occasional clear and dry spells. Minimum temperature 14 deg C (57 deg F).

Thursday:

Showers, heavy in places, affecting southern areas through the late morning, breaking up and easing slightly into the afternoon. Elsewhere, generally cloudy but dry. Becoming dry throughout by night. Maximum temperature 19 deg C (66 deg F).

Outlook for Friday to Sunday:

Remaining largely dry and bright on Friday. A mixture of scattered showers with longer spells of rain at times on Saturday. Further frequent heavy showers on Sunday, drier further north.
